**Please find below a communication from the EXAMINER in charge of this application**

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825. It is noted, for example, that the instant claims are drawn to molecules having all or a part of a specific amino acid sequence(s), however, the amino acid sequences are not represented by sequence identifiers. That is, although the instant sequence listing encompasses the nucleotide sequences encoding said corresponding amino acid sequences, the amino acid sequences *per se* are not listed in accordance with the rule. Similarly, the claims fail to recite the sequence identifiers which (if sequence requirements were met) would correspond to the amino acid sequences as set forth by the claims. It is also noted that the sequence identifiers starting with SEQ ID No. 38 do not properly correspond to Figures 9 and 10 as purported.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of

the attached Notice to Comply with the reply.
